EXPERIENCE

Net Media Group
DEC 2013 - PRESENT

Front-end Web Developer

- Built the front end for fourteen e-commerce websites in a fast-paced, conversion centric marketing agency, heavily utilizing A/B testing and analytics to continually increase engagement and revenue.
- Improved and maintained sites totalling $28 million annual revenue and averaging 12,600 sessions a day.
- Frameworks used include Magento, Wordpress, Ruby on Rails, Node, and Shopify.
- 2+ years using React for consumer-facing sites and in-house software.
- Experienced in building mobile-responsive sites from the ground up with cross-browser support in mind, as well as bootstrapping with front-end frameworks.

Intern, Frontend Web Developer
AUG 2013 - DEC 2013

- Made improvements to existing websites using Optimizely for A/B testing
- Introduced new responsive tools and methodologies to members of the team

United States Air Force
JUL 2004 - JAN 2009

Munitions Systems & Safety Expert

- Managed 3 to 5 man crews for 2 years in a hazardous work environment with no incidents
- Ran a hazardous materials account with strict safety regulations

EDUCATION

Weber State University
JUL 2010 - DEC 2013

BS Degree in Software Engineering
